Comprehensive Infection Panels

Synovasure® Comprehensive PJI Panel with SynTuition™*

Panel includes: Synovasure Alpha Defensin ELISA, Synovasure® Microbial Identification (Staphylococcus, Enterococcus, Candida, C. acnes), Synovial Fluid C-reactive protein (CRP), White Blood Cell (WBC) Count with Differential (PMN% and Red Blood Cell (RBC) Count), and Specimen Integrity (a280 and RBC Count) \$897.00

Tested alongside Synovasure® Comprehensive PJI Panel (not included in SynTuition™ Score

Synovial Fluid Culture (aerobic and anaerobic) +\$50.00

Optional Add-on: Crystal Analysis

+\$30.00

Synovasure® Comprehensive PJI Panel (NY State)**

Panel includes: Synovasure Alpha Defensin ELISA, Synovial Fluid C-reactive protein (CRP), White Blood Cell (WBC) Count with Differential (PMN% and Red Blood Cell (RBC) Count), and Specimen Integrity (a280 and RBC Count) \$194.00

Optional Add-on: Crystal Analysis

+\$30.00

Synovasure® Comprehensive NSA Panel*

Panel includes: Synovasure Alpha Defensin for NSA (alpha defensin and lactate), Synovasure® Microbial Identification (Staphylococcus, Enterococcus, Candida, C. acnes), White Blood Cell (WBC) Count with Differential (PMN% and Red Blood Cell (RBC) Count), Synovial Fluid Culture (aerobic and anaerobic), Crystal Analysis, and Specimen Integrity (a280 and RBC Count) \$299.00

Individual Infection Panels

Synovasure® Alpha Defensin for PJI

Alpha Defensin for PJI only \$125.00

Synovasure® Microbial Identification*

Includes Staphylococcus, Enterococcus, Candida, and C. Acnes \$155.00

Arthritis Testing

To order the Synovasure® Arthritis Specimen Transportation Kit (**00-8888-160-01**), contact your local Zimmer Biomet sales representative or sales distributorship

Synovasure® RISC™ Panel*

Panel includes: Cartilage Oligomeric Matrix Protein (COMP), Interleukin-8 (IL-8), Anti-Cyclic Citrullinated Peptide (Anti-CCP), Rheumatoid Factor (RF), Crystal Analysis, and White Blood Cell Count. \$188.00

If final cell count >3,000 cells or 70% Neutrophils, Add:

- Synovasure® Alpha Defensin for NSA (Alpha Defensin ELISA and lactate) +\$212.00
- Synovasure® Microbial Identification (Staphylococcus, Enterococcus, Candida, C. acnes)
- Synovial Fluid Culture (aerobic and anaerobic)

Prices subject to change – Effective as of 6/1/2025

* Not available in New York State

** Substitute offering in New York State for Synovasure Comprehensive PJI Panel with SynTuition. Does not include Synovasure Microbial Identification or SynTuition. Only applicable in New York State.
